1. All companies, descriptions, quantities and values are fictional. This is not a signed or binding contract.
2. Included scope has no separate charge. The rate-only labour line is not included in the measured total.
3. Physical completion does not determine claim value. QS quantities, prior claims and approvals require review.
4. The prototype simulates extraction. The source quantity for WI-001 is 1,200 m2; check it during review.
